Coronavirus (COVID-19) Update 4

Continuity of operations as an essential service

We understand there is some confusion around whether businesses can continue to operate after 11.59pm tonight before they are registered with MPI as an essential business.

To clarify: You may continue to operate after 11.59pm tonight as long as you complete your registration with MPI by close of business FRIDAY 27th MARCH. Guidance information to assist your registration is available [here](#).

If you have any queries or concerns regarding COVID 19 please do not hesitate to contact any of our staff and NZAPI. Contact details are below.

NZAPI COVID-19 Communications

There is a lot of information from different sources being sent to members that can be quite confusing. We would like to assure you that NZAPI are the single source of truth for the apple, pear and nashi industry.

NZAPI will be providing a daily email update at the end of the day to ensure

members are up to date with the latest information.

We have a dedicated COVID 19 page with information on our [website here](#).

Reassurance to employees

We understand this is a difficult time for employees who are concerned about the risk of continuing work while the rest of the country goes into lockdown. We hope that you can reassure your employees that all businesses that continue to operate are putting practices in place to keep employees safe from COVID 19 and prevent spread within the community. These include social distancing, monitoring for symptoms, and additional personal hygiene measures to protect employees from spreading COVID 19. Talk through the measures your workplace is putting in place with your employees to reassure them and where possible provide them with information to take home to share with their family.

Look out for our daily update later on this afternoon (this email is in addition to the daily update, just as a reassurance to our members).

If you need to contact any of the NZAPI staff, please [click here](#) for contact details
